

10 Kids Room Trends That Are Going to Be Huge in 2023

After another full year of Cubby we've filled 52 newsletters with all the nitty gritty details on decorating for kids, including pro picks for [the best kids' wallpaper](#) and [how to design a kids' bathroom](#). To close out the year, we're zeroing in on the trends that will dominate kids' rooms in 2023. We called on our favorite designers, almost all who happen to be parents themselves to ask: What kid room trends are you seeing on the rise, and why? Their answers range from a clever paint trick to an overarching trend towards safer materials. Read on to find out what these design pros are seeing in their crystal balls:

No More Neutrals

Caroline Brackett of [Caroline Brackett Studio of Design](#) agrees, “In recent years, there have been a lot of neutral kids rooms and nurseries, but that is becoming a thing of the past as bolder rooms take center stage,” she says. “We are seeing a lot of unexpected color combinations that are coming through [patterned wallpaper](#), paint colors, and fabrics.”
